

Mattoon Lions Club Sweet Corn Project

The life cycle of growing and selling Sweet Corn for Mattoon Community Food Center

An early customer sacks his own..

To prepare the sweet corn for the winter it needs to be blanched and cut off the cob

A family of Lions makes quick work of the cleaning, sacking chore... time to visit

Then put into bags to freeze. It is great all through the year. OR....

This customer bought a bag (15 ears for \$5.00) and came back for 4 boxes-16 bags

Granddaughter said yum get me more... who can wait... oh... so sweet
